PHARMEX

Since 1992

Online Store for Vitamins and Supplements

Contract Manufacturing/Product Information

What We Do - Contract Manufacturing

Pharmex Rom Industry is a Romanian company specializing in the **production and international distribution of premium dietary supplements**. With a strong commitment to quality, sustainability, and innovation, Pharmex has built a reputation for delivering advanced formulations with **Canadian** partners that support health, energy, and longevity since 1992.

Pharmex offers full-service **contract manufacturing** for dietary supplements. This includes:

- **Custom formulation development** based on client needs
- **Capsule and tablet production** using modern equipment
- **Compliance with European and international health standards**
- **Scalable production volumes** to suit startups or large enterprises

Whether you're launching a new product or expanding your line, Pharmex ensures precision, consistency, and regulatory compliance.

Private Labels in Any Language

Pharmex provides **private label packaging** tailored to your brand and market:

- **Multilingual labeling** for global distribution
- **Custom branding** with your logo, colors, and messaging
- **Flexible packaging formats** (bottles, blister packs, boxes)
- Ideal for businesses entering new regions or targeting niche audiences

Pharmex operates under **ISO-certified standards**, ensuring:

- **High-quality production processes**
- **Traceability and safety** across the supply chain
- **International credibility** for export and retail partnerships
- We hold an **ISO 22000 HCCAP**

This certification reflects Pharmex's dedication to excellence and regulatory integrity.

Flexible Pricing for Any Market

Understanding the diversity of global markets, Pharmex offers:

- **Adaptable pricing models** based on volume, region, and packaging
- **Cost-effective solutions** for emerging markets
- **Premium options** for high-end retail or clinical use

This flexibility makes Pharmex a valuable partner for businesses of all sizes and geographies.
